Education

- | | | |
|---|----------------------|------------|
| • B. Tech in AI & DS | Galgotias University | (pursuing) |
| • Diploma in Computer Science Engineering | GLA University | (67%) |
| • High School | Odisha Bord | (56%) |

Projects

- Built a **Loan Approval Prediction System** using **Python (Pandas, NumPy) and Scikit-learn**, where I performed data cleaning, preprocessing (handling missing values, encoding, scaling), and EDA to extract key features. Trained and compared models like Logistic Regression and Random Forest, evaluated using accuracy and F1-score, and selected the most efficient model for reliable prediction.
- Developed an **AI-powered Job Portal Management System** as a college project, enabling intelligent job matching between candidates and recruiters. Implemented features like resume-based recommendations, job filtering, and automated data handling using **machine learning concepts and database integration**. Designed a structured workflow for user management, job postings, and application tracking, improving efficiency and user experience.

Freelance Web Project

- Developed a fully dynamic e-commerce website **“Ishakshi”**, a luxury clothing brand platform, using **HTML, CSS, and JavaScript** with **Firebase** for real-time database integration. Designed a modern, responsive UI with a premium aesthetic, enabling dynamic product display, seamless user interaction, and efficient data management.

Training

- Completed my summer training of 6 weeks from **VJ INFO**. I work as a front end web developer in this company.
